The great steel atribe has already cost more thus \$10,000,000. It remains to be seen what it will gain.

The coal output of New Mexico, ac cording to statistics just published, has increased from 1,022,152 tons in 1859 to 1,262,853 tons in 1900, repre senting in value more toan twice the official gold output of the territory. The total output of the United States increased in that time from 253,739 \$992 to 260,064,281 toms.

TO CHECK CONSUMPTION.

The movement by the city coun at the instance of the health officer to reduce the danger of contracting tupercolosie to a minimum, is a commendable one, says the Phoenix Republican. It is much more essential Phoenix than it would be in a northern city, on account of the great-er danger to which our citizens are exposed by reason of the presence, on-pecially during the fall, winter and spring months of a large number of onsumptives. The plan involves the disinfecting of cooms occupied by persons known to be suffering from tuber enloss and the arrangement of public cuspidors in the parks. The most fruitful aprend of the disease is the dried sputum containing germs being carried through the atmosphere by winds. The growth of tuberculosis during the last twenty-five years has been most alarming, ontil now it is reckoned the greatest foe of the bu It is only within recen years that attempts have been made to check its advance.

THE TYRANNY OF LABOR.

cialist agitators and others about the "tyranny of capital." How about the tyranny of labor? sake the Los Angeles Times. The American public is certainly getting some striking obect lessons along that line just now What can be imagined more brutally tyrannical than the actions of these labor agitators in various parts of the country, of which we read from day to day in the newspapers? Not content with attempting to Impose upon the to practically take out in the employ ers' hands the control of their own business, they no er hesitate to resort to violence against their fellow-work men and often in the most cowardly and dastardly manner. A dozen strikets jump unawares upon a defenseles: awful crime of trying to support his family after the unions have ordered him to cease work. A few days ago in San Francisco a gang of these buland battered his head on the pave ment; then, when they discovered that he was a union man, they apologized and sent him to a hospital. What a bloody farce-literally, a bloody farce

A TRUST . OR A TRUST.

the organization of the United States corporation has been an influential factor in precipitating the strike ordered by the Amaigamated association. It was to have been ex pected that a combination possessing the tremendous influence of that recently formed by J. Pierpont Morgan would arouse on the part of labor a counter movement looking toward larger and more complete protection.

The venture, by means of co-opera put of so important a commodity as steel was an estraordinary assumption of power. it was an exhibition o autocracy which could scarcely fail to create auxiety and concern among the wage-carnets employed in the pro-duction of steel. It is doubtless held by the Amnigamated association that the right of inhor to form trusts is quite as valid as that of capital to Organize conspiracies against trade.

The public views with a feeling very

gle in which the steel companies and the steel workers are entering, but the trust business has been pushed to a limit in the United States, which carwith it a reasonable expectation

L. J. Curtis of Indiana arrived in to Mr. Houghton it wishes him success and health in his new duties.

Three horses similarly affected died below town, and one of Oscar Lobsellow town, and one of Oscar ady. The disease seems to run its hours and the animal either fully recovers or dies. In most cases when first noticed they are prope on the ground and efforts to get them up and past week have made the grass fairly make them stand is futile. In the shoot up Lohman horse strong medicines and injections sayed the animal. optnion has been advanced that the

> hay, but whether this is correct has hardly been proven yet. ALGODONES.

Special Correspondence. Algodones, N. M., Aug. 11.-- It has rained here almost every day for the last ten days, but not very much at any one time. There has been very beavy rains north of here and on Monday last the river was alive with fish, which had been washed down with the flood. There were several kinds of large quantities of fish in pools. San Felipe Indians caught one of the largest cels I have ever seen here. It was about four feet long and four inches in diameter. Thursday, also a rain in the river brought down an-

other lot of fish. The second crop of alfalfa is all harvested and the third cutting will commence the latter part of this week, which will insure a fourth cut-

The school board here is hard at work trying to fix up to build a new school house this summer. The building is to be 18x50 feet in the clear and will be large enough for the present. There is encouraging news the miners in this welnity,

The Blood HEALTHY OR DISEASED

When there is a natural and healthy circulation of the blood, the entire quantity, estimated at one-eighth the weight of the body, passes through the heart every five minutes. This rapid flow of the blood through the system prevents the entrance of disease germs and impurities of every description. It filters out all that is not necessary or good for the growth and development of the body and nourishing and strengthening the muscles, tissues, nerves and bones. But, unfortunately, few persons can rightly claim an absolutely pure blood supply and perfect and unpolluted circulation, and in consequence are exposed to innumerable diseases. Contagious Blood Poison, the greatest enemy to mankind, enters the system through the blood, and Cancer, Serofula, Rheumatiam, Catarrh, Eczema, Salt Edward Peoplesia, Tester in fact the miscrite of houseless. through the blood, and Cancer, Scrofula, Rheumatiam, Catarrh, Eczema, Salt Rheum, Psoriasis, Tetter—in fact the majority of human ailments—are caused by

dered and fostered in a sluggish. The Blood is the Source and impoverished blood, Old sores, chronic ulcers and rheumatic pains are com- of All Strength mon, especially among old people, whose blood naturally grows thin and pale because of the lack of the red corpuscles that give color and strength to youthful blood. Sallow complexions and rough, oily skins color and strength to youthful blood. Sallow complexions and rough, oily akins evidence some constitutional or blood trouble, which salves, lotions, powders nor any external treatment can cure. Diseases that originate in the blood, whether they manifest themselves as aleers, tumors, itching cruptions, muscular or bone pains, require a tonic and blood parifier such as S. S. S. which not only antidotes and neutralizes blood poisons and humors, but possesses health-giving tonic properties that to other blood medicine does. It goes down to the very foundation of the disease and eliminates from the system every-

Polluted Blood thing of a poisonous character or that obstructs and Breeds Disease closs the circulation. It builds up and imparts new strength and vitality to the old innutritious

blood, and when the arteries and veins are once more filled with new rich blood, the general health begins to improve, muscles grow stronger, and sores and eruptions of every kind disappear.

S. S. is the only guaranteed purely vegetable blood purifier, and the purest and most reliable in all blood diseases. It has been tested in thousands of cases during the past fifty years and is more popular today than ever. We will be glad to soull you our book free, and if in need of medical advice write our physicians all
